ABSTRACT

This document contains handouts from a panel discussion by a school library media specialist, an academic librarian, and a library educator that focused on what library schools are doing to prepare future librarians to teach. The handouts include: (1) a brief bibliography; (2) a survey of LIS (Library and Information Science) program BI (Bibliographic Instruction) courses from the ACRL (Association of College and Research Libraries) Instruction Section Education Committee; (3) a brief description of the LIS programs with BI courses in New York State; and (4) a sample syllabus for a BI course from the University at Buffalo (New York) that includes a course description, assignments, relevant Web sites, topics covered in each session, and bibliography. What are library schools doing to prepare librarians as instructors? Panel discussion for "InfoLit for ALL Students" New York Library Association Conference, Buffalo, NY. October 26, 2002

Lorna Peterson, Associate Professor, University at Buffalo

Where once teaching the theory, art and practice of instruction to librarians was considered the speciality of the school library media specialist only, or as an unreasonable demand by practitioners for addition to the library school curriculum, teaching bibliographic instruction has become a regular course for students preparing for all areas of librarianship. As part of a panel of a school library media specialist, an academic librarian, and a library educator, the following handouts show what library schools are doing for preparing future librarians to teach.

It is hoped that the bibliography, the ALA/ACRL Instruction Section listing of schools offering instruction for librarians, and the two syllabi by the author for a bibliographic instruction course, will prove useful for those attempting to understand where instruction skills fit in the preparation of librarians.

A reading of the articles represented in the bibliography will demonstrate how bibliographic instruction went from being perceived as a continuing education/workshop course into a regular course of the library and information science curriculum with full time faculty devoted to its teaching and as an area rich for research. For those interested in identifying faculty in library and information science who designate themselves as specialists in bibliographic instruction/user education, consult the Association of Library and Information Science Educators (ALISE) Directory. In the "Classification Guide" the number 39 is designated for bibliographic instruction/user education. By looking at the faculty names and the numbers they used to describe themselves, this gives a sense of who is teaching and doing research in the area of bibliographic

instruction. Adjunct and part time faculty are very important to the curriculum delivery of the library school, and some who teach for library schools are not part of the regular full time faculty. An interesting research topic would be to see not only where bibliographic instruction is taught, but by status, who is teaching it.

Library schools are preparing future librarians to teach. If not with separate instruction courses, by assigning class presentations to give practice in teaching and by covering bibliographic instruction in reference courses.

NYLA "Infolit for ALL Students" Saturday, October 26, 2002

What are library schools doing to prepare librarians as instructors? Panel discussion for
"Infolit for ALL Students" New York Library Association Conference, October 26, 2002

Educating the future instruction librarian, especially beyond the school library media tracks in graduate programs of library and information science (LIS), has come a long way in the past 10 years. Where once bibliographic instruction courses were experimental courses and as late as 1992 LIS deans and directors did not want dedicate a special course in the curriculum, teaching the theory and practice of instruction to library user groups is now a regular part of LIS teaching. Instruction theory and skills are seen as important components for academic librarianship and public librarianship and our library school curricula reflect this.

This handout for the panel discussion consists of a brief bibliography, A Survey of LIS program BI courses from the ACRL/Instruction Section Education Committee, a brief description of the LIS programs with BI courses in New York State and a sample syllabus from University at Buffalo.

**Association of College and Research Libraries (ACRL) Instruction Section (IS)
Education Committee**

Charge:

To facilitate and identify continuing education opportunities for instruction librarians as well as to promote the development of library instruction courses in graduate programs. The Committee is responsible for maintaining a web site that will identify educational opportunities for practitioners, educators, and students. The Committee will oversee Midwinter discussion forums and other continuing education activities, in cooperation with the ACRL Professional Committee, foster communication between practitioners and graduate school faculty working in the area of library instruction, and monitor the status of library instruction in graduate programs.

New York State American Library Association accredited Library and Information Science Programs offering bibliographic instruction courses

Albany: ISP 666 User Education: Theory and Technique
taught regularly by an adjunct

Buffalo: LIS 523 Bibliographic Instruction
offered since 1988; since 1991 has had a full time tenure track
faculty member devoted to teaching the course. Taught by an
adjunct only once 1991-2001

Long Island University: LIS 620 Instructional Design and Leadership.
Concentrates on school library media concerns but is open to all students.

Pratt Institute: LIS 673 Library Use Instruction. Offered once a year and
taught by an adjunct.

Queens College: No instruction course offered.

St. John's University: Information not available. Was not offered previous to 1999,
doubtful that such as course is offered there as of 2002

Syracuse: IST 662 Instructional Strategies and Techniques for Information Professionals
New course, added since 1999, full time, tenure track faculty presence-- generally not taught
by an adjunct. Concentrates on school library media concerns but is open to all MLS students.

Dr. Lorna Peterson
Fall 2000

Monday and Wednesday, 3:30-4:50 p.m.

COURSE DESCRIPTION: "Principles and theories of providing instruction in library use with emphasis on designing instructional sessions, improving teaching skills and evaluating bibliographic instruction materials. Includes teaching sessions and evaluation by students. Emphasis is on instruction in academic libraries with attention also given to school media centers and public libraries." SILS 1993-1996 Catalog, p. 12.

Instructor:

Dr. Lorna Peterson Office: 537 Baldy Hall
Office hours: Tuesday/Thursday 3:30-4:30
645-2412 (SILS Office)
645-3775 (fax)

Purpose: To provide an overview of bibliographic instruction within a historical, organizational, theoretical and philosophical framework. Teaching and learning theory will be covered with an opportunity for improving presentation skills for instructional sessions.

Objectives: On completion of the course, each student will be familiar with the field of bibliographic instruction and will be able to plan, present and evaluate a bibliographic instruction session; plan, create, evaluate bibliographic instruction materials; determine appropriate modes, methods and conceptual frameworks for a bibliographic instruction program; use technology appropriately and effectively in teaching; identify relevant bibliographic instruction journals and literature.

Requirements: Course requirements will include readings, taking the Learning Styles Inventory test (ungraded), joining the listserv BI-L (ungraded), joining the class listserv lis523-l, a review of literature on any aspect of bibliographic instruction the student chooses, one bibliographic instruction session using technology and with supporting instructional materials, an evaluation and comparison of electronic instructional materials (manuals, guides, tutorials, and help screens), and a written description of 2 bi sessions in action.

1. Textbooks. There is no required textbook for this course.

Information Literacy: Critical Skills for a Changing World, American Library Association, 1994 and Evaluating Information: A Basic Checklist, American Library Association, 1994, will be provided to you in class.

2. Reserve Reading. There is no Reserve Reading for this course. You are expected to read the materials in the urls provided. You are also responsible for identifying appropriate reading for writing the review of literature paper.

3. Bibliographic Instruction Session (30% of grade) Due Dates will be assigned. Because bibliographic instruction is teaching, one bi session, using computer technology and supporting instructional materials is required. You will develop a bi session for a particular curriculum and audience selected by you. Each presentation will be 25 minutes and evaluated by all members of the class and a panel of outside experts. Details will be provided in class regarding expectations, organization and equipment requests. Due dates will be assigned randomly in class and the sessions will take place between October 25-November 13.

4. BI Review of Literature Paper. (25% of grade) Due **December 4**. You are required to select a topic of interest to you regarding Bibliographic Instruction and write an 8-10 page review of the literature. You will footnote and include a bibliography.

5. Evaluation of Electronic Bibliographic Instructional Materials. 6-8 page paper (25% of grade). Due **November 29**. The creation of instructional materials in the form of paper and electronic guides, manuals, tutorials, help screens, web sites, CD-ROM, tape recordings, videos, etc. is a significant activity in bibliographic instruction. This assignment will concentrate on **electronic instructional material ONLY**. You will evaluate 1 BI online/electronic library skills manual, 3 library Internet pathfinders, 1 online tutorial for web use (making a homepage, using email, etc.), and 1 library catalog help screen for a particular type of search (e.g., author, title, keyword, subject, language, etc.). These electronic instructional materials will be discussed and evaluated by you in terms of production quality, appropriate use of medium, readability, audience, accuracy, ease of use, how well it meets objective, usefulness, and efficiency. Additional guidance will be provided in class and on a separate sheet. You are responsible for identifying the sources you want to evaluate although samples of such instructional materials will be provided in class. It is recommended that you bookmark the ALA LIRT Research Committee web site, <http://diogenes.baylor.edu/Library/LIRT/lirtproj.html> which has examples of web tutorials and other instructional materials. This is a labor intensive assignment so please manage/schedule your time wisely. For evaluation criteria, please refer to the ALA LIRT Research Committee site on evaluating web sources: <http://diogenes.baylor.edu/Library/LIRT/lirtcrit.html>
You should also consult the Tool Kit for the Expert Web Searcher at: <http://www.lita.org/committe/toptech/toolkit.htm#top>

To get you started on examples of online library and computer literacy materials, look at the following:

<http://www.buffalo.edu/aboutmyub/>

<http://ublib.buffalo.edu/libraries/units/ugl/workbook/>

<http://www.lib.iastate.edu/lib160/info.html>

<http://www.lib.iastate.edu/commons/front.html>

<http://www.library.uiuc.edu/help/default.asp>

It is recommended that you search library web pages (college, university, community colleges, public libraries) for materials to evaluate. Select institutions by your own interest.

6. BI in Action Paper. (20% of grade) Due **October 18**. One way to learn how to teach is through observation. You will identify, attend and write descriptions of 2 bibliographic instruction sessions. **This IS NOT an evaluation**. You are to observe what and how a librarian taught. This includes tours, teaching the use of an OPAC, bi session for certain disciplines, bi for specific sources, etc. The sessions must be by two different librarians. **You will not write evaluative comments AT ALL. Do not write about your interest, if the presentation was enthusiastic, humorous, etc. WRITE ONLY WHAT IT IS THE LIBRARIAN DID.** BI sessions are to be selected by the student to attend. Look for announcements in various libraries for workshops and sessions. Attend two different sessions/subject matter although it may be from one library.

7. Non graded assignments. You are expected to join the listservs Bibliographic Instruction Discussion Group BI-L@BINGVMB.CC.BINGHAMTON.EDU and the course listserv LIS523-L@listserv.listserv.buffalo.edu. You are also expected to take the Learning Styles Inventory test and to attend class.

You are expected to take the Learning Styles Inventory in class. We will discuss the results. These non graded assignments are important to the course content and will be incorporated in the lectures. You will also use what you have learned from these assignments in your own assignments.

Learning Activities: Lectures, guest lectures, class presentations, evaluation of peer teaching, evaluation of bi instructional materials, creation of bi materials, written assignments, attending bi sessions, readings, evaluation of self and peers in instructing.

LIS 523
Spring 1999

Assignments and Readings Due

A bibliography will be provided for you to select readings. It is also a base for beginning your review of literature. You are responsible for identifying your own literature to read for writing your term paper. You are also responsible for developing your own reading program to support the course goals and objectives.

Date Due	Assignments
September 18	Read: The ALA Presidential Statement on Information Literacy http://www.ala.org/acrl/nili/ilit1st.html and its follow up report: A Progress Report on Information Literacy http://www.ala.org/acrl/nili/nili.html
October 18	BI in Action Paper
November 29	Evaluation of Electronic BI Materials
December 4	BI Review of Literature Paper
October 25-November 13	BI sessions/class presentations Peer evaluations of bi sessions

LIS 523

Bibliography

Bibliographic Instruction literature is voluminous. The following is a base of readings for you to consult. These are not on Reserve and they are not assigned. You are responsible for developing your own reading program to support your assignments and lectures.

Dr. Peterson

Fall 2000

Review of Literature Assignment

Final papers are due December 4

Use Kate L. Turabian or the **Chicago Manual of Style** for your bibliographic citations.

A review of literature involves locating, reading, and evaluating reports of research, reports of observation and reports of opinion. The purpose of a literature review is to provide a critical evaluation of material that has already been published. In writing the review article, you will consider the progress of specific research toward clarifying a problem. The purpose of this assignment is to acquaint you with issues and problems in bibliographic instruction and information literacy.

In writing the review of literature, follow the below steps:

- * Define the problem
- * Summarize previous investigations
- * Categorize previous investigations and arrange by relationship
- * Identify relations, contradictions, gaps, and inconsistencies in the literature
- * Make recommendations and conclusion

For examples of excellent reviews of the literature in library science, see the **Annual Review of Information Science and Technology**.

The final paper must be 8-10 pages. A bibliography of works cited will conclude the paper (and will not count as the eighth page).

Checklist for the Review of Literature

1. Title Page with name, course number, title of the paper and your DLIS mailbox number.
2. Literature Review
 - a. Define topic clearly and specifically
 - b. Avoid or keep to a minimum direct quotations
 - c. Summary of research
 - d. Conclusion
Restating the main findings of your paper
3. Bibliography

LIS 523

Dr. Peterson, Fall 2000

COURSE GUIDELINES

1. Late Assignments

Assignments turned in late will be marked down .33 quality points for each week. An assignment is late if it is not received the hour of class starting on the date due. Please have late assignments date stamped in 534 Baldy.

No late assignments will be accepted after the official last day of

classes. Assignments not received by 4 p.m. on the official last day of classes will receive an "F".

2. Attendance

Attendance is expected. Information given in class is for the class period only. Individual tutorials for classes missed will not be available. Please have late assignments date stamped in the DILS Office (534 Baldy). I prefer to have assignments turned in to class on the date due.

IF YOU ARE COMING TO CLASS, TURN IN YOUR ASSIGNMENT IN CLASS.

3. Incompletes

Incomplete grades are rarely granted and requests for an incomplete must be submitted in writing stating the reason for the delay and the agreed upon date that the Incomplete will be removed. A form for such a statement is available in the SILS office. Incompletes are not given as alternatives to F's or C's. A grade of incomplete may be taken only because of illness or special circumstances.

4. Extra Work

There will be no opportunity for doing supplemental work to raise your grade.

5. Redo Work

There will be no opportunity for redoing work.

6. Absences

You are responsible for getting material for classes missed. I suggest you find a friend in class willing to share notes and handouts. Lectures are given in class only. I do not give the course in my office to individuals.

7. Waiting

If I am ever more than fifteen minutes late for class, please consider yourself excused.

8. Plagiarism

The University and SILS have specific policies regarding plagiarism. Please be aware of them.

9. Academic Integrity

It is expected that you will behave in an honorable and respectful way as you learn and share ideas. Therefore, recycled papers, work submitted to other courses, and major assistance in preparation of assignments without identifying and acknowledging such assistance will not be tolerated. Please consult with me if you are in doubt regarding ethical academic behavior. Please be familiar with the SILS Statement on Academic Integrity.

10. Grades

Grades are not negotiable.

Grades are reported through the university. I do not post grades.

Notable quotes in bibliographic instruction history:

Justin Windsor 1880 " ... make the library the grand rendezvous of the college teacher and pupil alike, and to do it in as much of the teaching as is convenient and practicable ... In all this the librarian becomes a teacher ..."

Otis Hall Robinson 1881 " ... The time is passing when the chief duty of a librarian was to collect books and preserve them. How to get them used most extensively, most intelligently, and at the same time carefully, is becoming his chief concern ... So important do we regard a good library education, that special instruction is given on libraries and the method of using them ... next to the acquisition of knowledge itself is the learning where and how it may be acquired."

Ernest Boyer 1986 "The quality of a college is measured by the resources for learning on the campus and the extent to which students become independent, self directed learners ... All undergraduates should be introduced carefully to the full range of resources for learning on a campus. They should be given bibliographic instruction."

Needs Assessment

December 9	Exam
December 11	Wrap-up Course Evaluations

BI in Action (10% of grade)

Due October 14

Observation of teaching is an effective way to learn teaching methods. You are required to identify and attend two bibliographic instruction sessions by two different librarians and write a 2-3 page paper of what and how (methods, equipment used) the librarian taught. BI sessions for SILS courses are not appropriate for this assignment. This is not an evaluation so please do not comment on how well you thought the teaching was done. In observing the session, note and write about the following: did the instructor introduce self and topic? was there an ice breaker? what instructional aids did the instructor use (blackboard and chalk, handouts, passed around books, book truck, transparencies, PowerPoint, computer and projection system, video, etc.)?, how many were in attendance? was it an open to public session or part of a course? were attendees called upon? was it hands on activities? demonstration? Observe what the librarian and describe.

BI in a Sociological Context Paper
20% of Grade

 **Due November 20**

Are there differences in who gets to learn how to use the library and its resources? What do librarians do to reproduce or eradicate social inequity in educational contexts? How do our institutions reinforce social class stratification? When we think of library users, with what assumptions do we as librarians come? What do we know about our educational institutions and the political, sociological, and economic frameworks which structure the delivery of knowledge? What do we really know about our users and beyond stereotypical constructs? Select one of the following books placed on Reserve (Undergraduate Library, Capen Hall) and write a response paper of 5-7 pages on the teaching of library use within the context of the issue or population discussed. Your response will be to the work with opinions supported by outside readings. You will footnote and provide a bibliography. Lectures and assigned readings on curriculum differentiation will assist you in making the connections.

Read one of the following: **Families on the Fault Line, Worlds of Pain, Working Class without Work, Savage Inequalities, Illiterate America, Bright College Years, College and *The Diverted Dream*.** Please tell me of your selection by **October 7**.

Evaluation of Bibliographic Instruction Materials: Paper, Electronic and Video

Due: November 4

20% of final grade

The creation of guides, manuals, handbooks, pathfinders, tutorials, maps, self-guided tours, signs, etc., are regular responsibilities of bibliographic instruction librarians. Librarians create instructional materials in a variety of media, combining text and visuals, to assist patrons in using the library. In order to gain familiarity with these types of instructional materials, and to provide a foundation for the creation of materials, you are required to evaluate **2 paper (book length) bibliographic instruction manuals, 3 library paper guides, 1 audiocassette tour, two library instruction videos, 1 computer assisted product (Research Assistant), 1 manual from the web, 1 web based library tour, and 1 web library guide/pathfinder.** This 15-20 page paper will be discussed and evaluated by you in terms of production quality, readability, audience, accuracy, ease of use, appropriateness of medium, how well it meets its objective, and usefulness. You will also compare and contrast the various media (print/paper; video, audio, electronic) in terms of usefulness, access and efficiency. You are also to discuss the impact of the web on library instructional materials. Print materials have been placed on Reserve in the Undergraduate Library, Capen Hall. Please see the list **Manuals and Guides Placed on Reserve** for selecting books and paper guides to evaluate. Library instruction videos, audiocassette tours, and Research Assistant are available on Reserve in the SILS Lab, 14 Baldy Hall. URLs for web based manuals, tutorials, etc. are provided on the list **Web Based Library Instruction Materials.**

Reproduction Release

(Specific Document)

I. DOCUMENT IDENTIFICATION:

Title:

What are library schools doing to prepare librarians as instructors

Author(s): *Lorna Peterson*

Corporate Source:

University at Buffalo

Publication Date:

2002

II. REPRODUCTION RELEASE:

In order to disseminate as widely as possible timely and significant materials of interest to the educational community, documents announced in the monthly abstract journal of the ERIC system, Resources in Education (RIE), are usually made available to users in microfiche, reproduced paper copy, and electronic media, and sold through the ERIC Document Reproduction Service (EDRS). Credit is given to the source of each document, and, if reproduction release is granted, one of the following notices is affixed to the document.

If permission is granted to reproduce and disseminate the identified document, please CHECK ONE of the following three options and sign in the indicated space following.

The sample sticker shown below will be affixed to all Level 1 documents

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL HAS BEEN GRANTED BY

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

Level 1

Check here for Level 1 release, permitting reproduction and dissemination in microfiche or other ERIC archival media (e.g. electronic) and paper copy.

The sample sticker shown below will be affixed to all Level 2A documents

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL IN MICROFICHE, AND IN ELECTRONIC MEDIA FOR ERIC COLLECTION SUBSCRIBERS ONLY, HAS BEEN GRANTED BY

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

Level 2A

Check here for Level 2A release, permitting reproduction and dissemination in microfiche and in electronic media for ERIC archival collection subscribers only

The sample sticker shown below will be affixed to all Level 2B documents

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL IN MICROFICHE ONLY HAS BEEN GRANTED BY

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

Level 2B

Check here for Level 2B release, permitting reproduction and dissemination in microfiche only

Documents will be processed as indicated provided reproduction quality permits.
If permission to reproduce is granted, but no box is checked, documents will be processed at Level 1.

I hereby grant to the Educational Resources Information Center (ERIC) nonexclusive permission to reproduce and disseminate this document as indicated above. Reproduction from the ERIC microfiche, or electronic media by persons other than ERIC employees and its system contractors requires permission from the copyright holder. Exception is made for non-profit reproduction by libraries and other service agencies to satisfy information needs of educators in response to discrete inquiries.

III. DOCUMENT AVAILABILITY INFORMATION (FROM NON-ERIC SOURCE):

If permission to reproduce is not granted to ERIC, or, if you wish ERIC to cite the availability of the document from another source, please provide the following information regarding the availability of the document. (ERIC will not announce a document unless it is publicly available, and a dependable source can be specified. Contributors should also be aware that ERIC selection criteria are significantly more stringent for documents that cannot be made available through EDRS.)
